

# The Ships Project

## Help Us Support Our Troops

### Item Guidelines

#### COLORS

Any 'guy' colors are welcomed by the troops, especially:

- ❖ Black
  - ❖ Brown
  - ❖ Grey
  - ❖ Blue
  - ❖ Green
  - ❖ Tan
  - ❖ Camouflage
  - ❖ Red/White/Blue combinations
- (Either Dark or Bright Shades)

For the ground troops, the darker colors, such as browns, blacks, dark blues and greens, tan, and desert camouflage are needed. For the ships, any 'guy' colors are fine, and they welcome the brighter colors! Variegated yarns in any of the colors listed above are also fine!

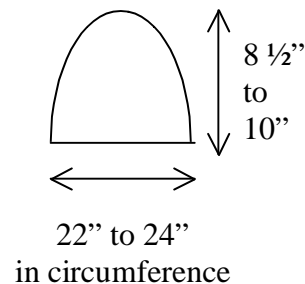

Colors the military has asked us not to send include:

- ❖ Pink
- ❖ Lavender
- ❖ Pastels
- ❖ Neon colors
- ❖ White (As an accent color, such as in patriotic combinations, white is acceptable. Items made entirely in white, or with white as the main color, do not work well for the troops, for the simple reason that they will not stay white!)

#### HATS

Hats should be between 8 ½ to 10 inches deep, and stretch to between 22 to 24 inches in circumference.

Any of the colors listed above are fine for hats, in solid or variegated yarns. Stripes, or other color patterns, are always popular with the troops!

#### SLIPPERS

Slippers should be 8 ½ to 11 inches in length. For safety reasons, slippers need to have a cuff, or come up over the ankle. Any of the colors listed above are fine for slippers, in solid or variegated yarns.

#### PATTERNS

Patterns approved for The Ships Project are available at: <http://www.theshipsproject.com>
